

My Stuff Job Central **Web** App Quick Start

Create your resume and a master job application with the My Stuff Job Central web app.

This quick start is for the web version of My Stuff Job Central—there is also a mobile version. Use the same email address and password to access both versions.

Using the same email and password syncs the web and mobile versions so whatever you add or change in one version is automatically added or changed in the other.

Get started!

1. Go to the My Stuff Job Central website at <https://mystuffjobcentral.org/>
2. Set up your account
3. Enter your resume information
4. After you're done, go to the View-Print-Send menu to print and/or send your resume.

To work on your mobile device, download the “My Stuff Job Central” app from your app store and use the same username and password as your web account.

Review these resume categories to gather the information you'll need before you start:

My Stuff Resume and Master Job Application Categories

Personal Info

Your personal information is your contact information.

Profile

List a career path goal or job title and details about yourself that won't be included elsewhere.
